## ACHIEVEMENTS

### 🏆 Best Report Design Award LATsar 2020 CPNS Maybrat Regency

I'm truly honored to receive the Best Report Design award. It's a great recognition of the hard work I put into creating a design that's both clear and engaging. I'd like to thank everyone who supported me along the way. This award motivates me to keep improving and pushing my creativity in design.

### ⭐ Speaker At The Employee Statistics Socialization In Maybrat Regency

I'm grateful for the chance to be a speaker at the employee statistics socialization in Maybrat. It was a great experience to share my knowledge, and I hope my presentation was helpful.

### ♥ Innovation In Animating SVG Systems

Animating SVGs is a great way to make websites more interactive and engaging. It helps create appealing visuals while keeping the site lightweight and fast to load.

## SOFT SKILLS

Problem Solving • Adaptability (Fast Learning) • Time Management • Communication (in English)

## HARD SKILLS

## SUMMARY

Passionate Lead Instances Project Manager with 4+ years of experience specializing in website applications, UI/UX design, SVG animation, and Adobe Illustrator. Proven track record of driving project success across multiple instances.

## EXPERIENCE

### Information System Administrator

12/2020 - Present

### Maybrat Regency Government

Maybrat Regency, Indonesia

- Developed a local web app to help employees manage their data and monthly reports, making their tasks simpler and more efficient. This improvement allows them to stay on track and easily prepare the necessary documents for their next promotion.
- Implemented a system to convert physical documents into digital data and built a centralized hub to store it securely in the local data center at the main office.
- Mentored four junior employees in successfully conducting the national population census using a web app to track their tasks. The app helped streamline data collection across multiple villages by dividing the workload efficiently.
- Initiated a successful workflow revamp using iterative processes, increasing web app development by 25%.

### IT Support • Event Committee

09/2023 - 06/2024

### Council Clerk (J.M)

Sorong City, Indonesia

- Developed a local web app for reporting vote count on election events, displaying live updates on a widescreen in the Secretariat Office. Enabled workers to submit election data via WhatsApp, which was then stored in the web app for real-time tracking.
- Decorated the Secretariat Office to ensure it was fully functional for work, including installing the network to enable efficient tracking and ensure convenience.

### IT Support • Fullstack Developer

06/2018 - 09/2018

### GKI Ekklesia Sorong

Sorong City, Indonesia

- Developed a desktop app using C# to manage the congregation database for a subdistrict as my thesis before graduating, and continued to develop the app after finishing college.
- Assisted the data manager at GKI Ekklesia in managing the congregation database and collecting data using Google Forms.

### IT Support • Music Producer

12/2010 - 06/2014

### Mios Mansuar Group

Raja Ampat Regency, Indonesia

- Mentored a group in music production, set up the music studio for full functionality, and assisted in producing music for an event in Raja Ampat Regency, which was attended by the President of Indonesia.
- In my free time, I continued to assist the group and supported them in their roles as government employees in Raja Ampat Regency, by fixing computers in their office and troubleshooting their workplace network issues.

## EDUCATION

### Computer Information Systems

06/2011 - 12/2016

### Victory Sorong University

Sorong City, Indonesia

### Computer and Networking Engineering

06/2008 - 06/2011

### State Vocational High School 4 Sorong

Sorong City, Indonesia
